NEW YORK HEALTH COMMISSIONER WARNS NATION OF DANGER OF TYPHUS PLAGUE U. S. HEALTH SERVICE STANDS GUARD

Europe More Disease Ridden Than Ever Says the U. S. Health Commissioner and Very Stringent Measures Will Be Needed to Prevent Spread of Epidemics to This Country.

WATCHING IMMIGRATION CLOSELY

NEW YORK, February 12—The greatest menace confronting the United States today is the possibility of the typhus plague, according to Dr. Royal Copeland, Health Commissioner of New York City.

The disease is being kept out of the country and so far the only known cases are those of immigrants detained on an island in New York bay.

"The danger is very real," Copeland said in an interview with the United Press today, "unless federal, state and port authorities co-operate immediately in combating the influx of immigrants from the typhus infected districts of Europe."

President Wilson recommends that immigration from the disease ravaged areas be stopped.

Dr. Copeland issued an order requiring all trans-Atlantic passengers arriving here to pass a rigorous health examination before admittance. This became effective today. Similar action was taken by New Jersey authorities.

If it broke out in New York the entire country would be exposed to the greatest plague in its history.

"The situation brought about by our recent influenza epidemic would be nothing compared to it," Dr. Copeland said.

WASHINGTON, February 12—Surgeon General Cumming today predicted the Public Health Service would succeed in preventing the spread of typhus into this country. More than 20 passengers were infected with the disease when a ship docked in New York City a few days ago.

European doctors recently estimated that there are one million cases of typhus and other epidemic diseases in Poland and surrounding country according to Dr. Cumming.

"Europe," he said "now is more disease ridden than a year ago when the United States, England, France and other governments joined to fight typhus in Poland."

Cumming is planning first to establish additional branch public health service stations in Europe. There are now 15 offices in which immigrants can be examined. He also plans federal control of quarantine regulations of New York which is now the only port not under direction of the Public Health Service.

GENERAL REDUCTION OF WAGES WAS NOT CONTEMPLATED SAYS R. R. SPOKESMAN

CHICAGO, Feb. 11—A general reduction in wages of railway employes is not being considered by the Association of Railway Executives, which represents 90 per cent. of the trackage of the country, according to a statement issued to night by Thomas Cuyler, chairman of the Association.

Mr. Cuyler's statement came in response to reports circulated in railroad and union circles that the meeting of Railway Executives, which he today called for February 18, would discuss plans for a general wage reduction on all roads. Such a proposition never has come before the Association or its labor committee, Mr. Cuyler said.

JURY AND COURT IN HATFIELD TRIAL MAY BE TAKEN TO SCENE OF CRIMES

WILLIAMSON, W. Va., Feb. 12—The jury trying the Hatfield and 19 co-defendants for the murder of Albert Felts a mine guard will view the scene of the battle at Matewan last May which resulted in the killing of ten deputy sheriffs and detectives. J. S. Coniff announced for the defense today that he would insist that the court and jury make the trip when the state concludes its case. The Main street at Matewan where an open revolver battle was waged and other landmarks would be submitted as evidence, he said. The nine mile trip by train will save much time at the trial. Court convened at 8 o'clock.

FAMILY OF FIVE CHILDREN ARE DEAF AND DUMB AS RESULT OF THE MEASLES

HINTON, W. Va., February 12—Five children of James Marshall, ranging in age from 8 to 19 years, became deaf and dumb as a result of an illness from measles. They are now under treatment.

UNEARTHING OF SKELETON IN AN OLD MINE SOLVES OLD TIME MURDER MYSTERY

MORGANTOWN, W. Va., Feb. 12—Murder believed to have been committed more than 11 years ago was unearthed here today with the finding of a skeleton in an abandoned mine. The skeleton with the head crushed was believed to be Frank Cartright murdered in 1909.

The End of A Perfect Day

TWO WOMEN AND TWO CHILDREN BURNED TO DEATH IN OLD FRAME FIRE TRAP

MEMPHIS, Tenn., February 12—Two women and two children were burned to death today in a fire in a rooming house here. The dead are: Mrs. Liddie Newman, and Mrs. Thelma Simmons, sister of Mrs. Newman and her two children, Nellie, aged 4, and Helen, one year old. They were trapped in a room on the second floor of an old frame dwelling.

WANT OLD WARSHIPS TO BE GIVEN TO THE AIR SERVICE FOR TARGET USAGE

WASHINGTON, February 12—A resolution demanding the Secretary of the Navy to turn over to the army aircraft service obsolete war ships in order that the army aircraft service can bomb them to test the effectiveness of airplanes in war was introduced in the Senate by Senator New and in the House by Representative Anthony.

POLICING OF VLADIVOSTOK SERIOUS MATTER IS BELIEF IN WASHINGTON

WASHINGTON, February 12—American opposition to the policing of Vladivostok by the Japanese forces is creating a serious situation according to unofficial dispatches reaching here from Japan. Since the killing of Lieutenant Langdon by a Japanese sentry at Vladivostok relations between the Japanese and other foreigners in Siberian cities are understood to have become strained. Unofficial reports declare that five American sailors were fired upon at Vladivostok.

LOST STUDENT TURNS UP AFTER BEING ABSENT FROM HOME FOR FOUR MONTHS

HINTON, W. Va., February 12—Missing since October, Carl Clark, former student at the West Virginia University, returned to the home of his sister here with the explanation that he has been in the army. Circumstances surrounding his enlistment are not clear. It is believed the youth suffered a mental aberration.

IF REDUCTIONS ARE REASONABLE WE WILL ACCEPT SAYS HEAD OF RAIL UNION MEN

CHICAGO, Feb. 12—Modification of the national working agreement and reduction of wages will not be opposed by railroad unions if the railroad owners will show that such modifications are not unjust and unreasonable to the employes, Bert M. Jewell, President of the Brotherhood of Railroad Shopmen said here today.

MANY BANKERS OF CLEARFIELD WENT TO ALTOONA TODAY

The twenty-sixth annual meeting of Group Six, Pennsylvania Bankers Association will be held today in the Second National Bank building at Altoona. A number of prominent speakers have been secured for the occasion. The session will start at 11 o'clock and will be followed by a luncheon at the Logan House. Among the principal speakers will be John Moody, economist, editor of "Moody's Manual," New York; Edward J. Cattell, statistician, and William H. Hutt, deputy governor federal reserve bank, both of Philadelphia. P. T. Davis, treasurer of the Clearfield Trust Company, is a member of the council which is the governing body of the various groups. Rev. E. P. Foresman, of Hadley, and son, P. A. Foresman, of Pittsburgh, spent yesterday and last night with their nieces and cousins, Mrs. Alfred Black and Mrs. R. D. Pearce left this morning for Moshannon to visit Mr. Foresman's sister, Mrs. M. H. Rankin.

NO IDENTIFICATION OF WOODSMAN SEEMS POSSIBLE

Altoona Authorities Are At A Loss to Know What Disposition to Make of His Remains.

KNOWN AS CHAS. KELLER

The case of Charles Keller, the giant woodsman who died rather suddenly at the Mercy Hospital, Altoona, about four weeks ago, has developed into one of very unusual circumstances and as all attempts to have the body identified by relatives so far have failed. The local authorities are in sort of a quandary as to what disposition to make of the remains.

There were no personal effects on his body to lead to any definite conclusions about his identity and there are no marks on his body whereby relatives could get a definite clue. He has a scar over his forehead, but practically no other marks of identification. He was thought to be from Berks county, but shortly following the man's death, a brother of the Berks county Charles Keller went to Altoona but could not identify the dead man as his brother.

Mrs. W. H. Gates, who lives at 3322 Oak avenue, may be able to throw some light on the family connections of Charles Keller, the former woodsman, whose body has been held at the undertaking establishment of Lafferty and Tobias in Altoona for the best part of a month in the hope that some of his relatives might be able to definitely establish the man's identity and claim the body.

Mrs. Gates formerly kept a boarding house at Bakers Mines and she states that about eight years ago a man by the name of Charles Keller boarded at the place for some time. He was a tall man and in other respects answers the description of the dead man. The man at that time had told her of some of his family affairs and this information may help to clear up the identity.

BIG QUANTITY OF LIQUOR CAPTURED BY STATE POLICE

A truck containing ten cases and three barrels of whiskey, and a roadster conveying 178 quart bottles of whiskey, valued at \$10,000 were intercepted by a detail of state police yesterday morning on the state highway near Tyrone, headed for Clearfield. The cargoes were confiscated and taken in the vehicles to Bellefonte, where the driver is being detained.

The police were pursuing the drivers of the truck and roadster, which passed through Lewisburg early in the morning, the officers having later been notified of the passage of the cars. When near Tyrone, the police came upon the truck and car, both Rees, standing on the road, out of gasoline. The truck was in charge of Michael Varowski, of Wilkes-Barre, but the occupants of the roadster had made good their escape.

HIGHWAY DEPARTMENT POLICY FOR THIS COUNTY WILL NOT BE DEFINED UNTIL LEGISLATURE MAKES APPROPRIATIONS

Bell and Morris Townships, Held Over From Last Year, Certain To Get Early Action But New Roads Are Being Held Up. Draucker's Woods Piece May Not Be Constructed.

ROAD TO GRAMPAN FULLY DISCUSSED

The County Commissioners and Pres. Gearhart, John Forsyth and Sec. Bain of Clearfield Co. Good Roads Association went to Harrisburg the first of the week to interview State Highway Commissioner Sadler regarding the program of the Highway Department for Clearfield county during 1921. They took up with the Highway Commissioner the many projects in which Clearfield county people are interested, but received very little encouragement and nothing at all definite from Mr. Sadler. Several of the projects put up to the Highway Commissioner are 50-50 propositions and in each and every case the Department was positively non-committal and would make no promises whatever, due to the fact as explained by Mr. Sadler that the Legislature had not made any appropriations as yet for 1921.

The delegation gained the following information from their visit.

Bids for that long expected two mile stretch of road between Mahaffey and McGee's Mills will be among the very first advertised for this spring as that is really unfinished business from last year.

The Department gave no intimation whatever as to what would be done with the proposed improved road through the Draucker's woods section. This proposition doesn't look any too favorable for this year.

The Curwensville-Grampian connection is under consideration and the engineers are now at work determining the best route between the two towns. There was a strong movement on foot to have this road go up the valley, largely on account of the grade and the elimination of railroad grade crossings. It is thought now that the road would serve more people and be more advantageous by following the present route up the hill. For the purpose of eliminating the grade crossings it is proposed to take over the present borough bridge across Anderson creek and erect a county bridge across the railroad tracks and Anderson creek, the bridge to start from the corner near the Catholic church thus eliminating the turns at either end of the present Anderson creek bridge. The grade on the hill is very easy.

The B. R. & P. crossing at Bailey's was put up to the Highway Department and application for this improvement will be made to the Public Service Commission at an early date, in order that this improvement may be made before the Dowler & Anderson contract from Hyde to the Curwensville line is completed. This matter was put up to the Public Service Commission at the time similar action was taken to compel the railroad company to build a new bridge at Hogback, but the complaint was withdrawn at the request of the B. R. & P., with the understanding that the railroad company would go along on the improvement when the time to complete it arrived with the building of the road.

The improvement of the road through Osceola borough, which is a 50-50 proposition was one of the projects which await the Highway Department's legislative appropriation.

A delegation of DuBois people also met the Highway Commissioner and asked that the stretch of road connecting DuBois and Falls Creek be built this year. Nothing definite was offered as to this proposition.

A crew of engineers is now at work on the connecting link between Sandy Ridge and Tyrone and it is the hope of the Highway Department that a contract for this much-needed improvement may be let this year.

Bids will be opened on March 18th for 25,246 feet of road leading from Troy crossing to the New York Central railroad tracks at Allport in Morris township.

With the County Commissioners were John Forsyth, Peter Gearhart, John Bain, L. C. Norris, M. I. McCreight and E. W. Gray, of the Courier, from DuBois were present. Harry Scott and C. B. Maxwell were also in the delegation.

NO TRUTH IN RUMOR THAT STEEL MILL WILL RESUME OPERATIONS ON MONDAY

The Nickel-Alloys management announces that the plant will not start operations on Monday, February 14th, as has been rumored. Announcement of the company's plans as well as date of payment of back pay will be made in these columns as soon as known.

TODAY IN CONGRESS

In the Senate

Judiciary Committee considers France bill amnesty of political prisoners. Manufacturers Committee continues coal hearings.

In the House

Continues consideration of the Naval Appropriations Bill. Edward Hurley, former chairman of the Shipping Board appeared before the Investigation Committee. The Ways & Means Committee continues tariff hearings on articles not on the free list. Appropriations Committee continues hearings on the fortification appropriations bill.

THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

Poultry

Brooder stoves should be overhauled and ready for action before the chicks hatch. Send for any needed repairs at once and be ready for business when it comes.

The Spring Litter

See that the brood sow is in the best of condition by giving her special care and attention from now on. Plenty of the right kind of feed and exercise will make for a successful litter.

Garden

Disease-free seed is an essential to success in trucking and vegetable growing. In selecting potato and other home-purchased seed for this year's garden, insist upon getting the best.

Electric Lighting

The storage battery on the farm home electric lighting plant should have frequent attention. None of the connections should be allowed to run hot when the plant is in operation. Whenever an electric connection becomes hot, it is either loose or insulated in some way. They should be scraped and tightened so that the smooth metal parts will be in contact.

SILAGE IMPORTANT IN CATTLE FEEDING RATION

The selection of the ration is one of the most important factors in successful cattle feeding. The ration

must be selected with a view of keeping down the cost of feed and at the same time retain the efficiency of the combination according to livestock specialists at the Pennsylvania State College. With the reduction in the price of corn and other farm grains, they will no doubt again be used to a greater extent in cattle feeding.

Silage should be the primary roughage in every cattle feeding ration. It is possible to produce a very satisfactory class of market cattle on a ration of silage, cottonseed meal or oil meal and corn stover. When such combination is fed, the silage must be made from well matured corn and allowed in unlimited amounts in the ration. The cottonseed meal should be allowed at the rate of 2 1/2 to 4 pounds per thousand pounds live weight daily. Experiments conducted at a number of experiment stations show that in all cases where corn silage has been used in the ration as compared with no silage, the net returns from the operation were from \$10 to \$15 more per steer for all silage-fed cattle.

Another method of feeding that has given very satisfactory results is when the ration during the first two months of a feeding period consisted of an unlimited allowance of silage, supplemented with a protein feed such as cottonseed meal or oil meal and an allowance of corn stover, hay or straw. Corn in some form added to these feeds during the last half of the feeding period will result in satisfactory gains and a good class of cattle.

Y. M. C. A. BOWLING LEAGUE STARTED

The Y. M. C. A. Bowling League started on the "Y" alleys last night. The opening contest was played by the teams representing the Red Men and the Odd Fellows, the Red Men winning two games out of three by 190 points.

Swales bowled the largest single score and Fletcher the largest total score.

The score:

Red Men	Odd Fellows
Swales 203 153 143—500	
Wilson 176 150 171—497	

Fletcher	176	184	170—530
Totals	555	489	484-1528
Odd Fellows			
Roseberry	165	171	159—495
Jordan	170	151	111—432
Ennis	115	178	129—422
Totals	450	500	379-1329

Tree Marvellously Preserved.
Discovery has been made in the Holman iron mine near Taconite, Minn., not far from the source of the Mississippi river, of the trunk and branches of a prehistoric tree in an excellent state of preservation, with the coles on it. The tree is not petrified and the wood is perfectly sound.

NEWS OF OUR NEIGHBORS CURWENSVILLE

Feb. 11, 1921.

Editor Clearfield Progress, Clearfield, Pa.

Dear Sir:

My attention has just been called to the Curwensville news and your editorial in The Progress Friday, February 4. The news item in question is the "street reports" of the Curwensville schools, and the editorial based on the content of that item. The writer of the item either intentionally published a false report to discredit the discipline of the schools, or published a false report to discredit the discipline of the schools.

The so-called "funny regulations" mentioned may sound funny on the street corner when mouthed by the street loafer or gossip; but they may sound differently to those who are sufficiently interested to visit our schools and find out first hand what is going on inside the doors. The fact of the matter is, the location of the school does not have been mentioned and has not even been thought of as a remedy for tardiness.

I am, however, willing to sustain to the limit of my power, any effort to reduce to a minimum tardiness in the schools under my supervision. In this, I believe, I have the support of both the county and state supervisors.

We teachers are human and as such make mistakes. We have no objections to our mistakes being used as a basis for criticism. It would seem that we make enough mistakes to furnish ammunition to the street corner propagandist without making it necessary to resort to misrepresentation or falsehood.

I want to express my appreciation of the sentiment contained in your editorial on the subject in question. If you see your way clear to publish this note in the Curwensville news, it may help to clear up any misunderstanding that may have arisen over publication of the

street reports.
Very truly yours,
R. A. SHIELDS,
Principal, Curwensville schools.

The big posters announcing the Community Dollar Day made their appearance today and they are beginning to stir up a lot of interest in the event.

Our merchants are going into this new merchandising event with a snap and vim that makes its success a foregone conclusion. The date has been definitely set for the 25th and it is hoped that the weather man will hand out a brand of weather that will allow everyone for miles around to be able to come to Curwensville for the feast of bargains.

Do not forget the Ladies' Aid Society of the Presbyterian church has made all arrangements for the holding of a Valentine Festival in the basement of that church on Monday evening, February 11. A cordial invitation is extended to all.

Services will be held at United Christian Church Sunday at 11:15 a. m. and 7:30 p. m. Wednesday evening at 7:30 Prayer meeting and Bible study. All are invited. Rev. A. N. Salvie of Clearfield will preach.

MINISTERS ENDORSE CHINA RELIEF FUND

At a meeting of the Ministerial Association of Clearfield the following was presented and favorably acted upon:

"That the Ministerial Association give its endorsement to the China relief fund and that the matter be presented to the several churches and published in the papers."

Apt to Come.
"I expect it any day now with white paper as high as it is." "What's that you expect?" "An embargo on poetry."—Louisville Courier-Journal.

If you could see the swarming millions of germs that get on your hands even through touching apparently clean things, you'd realize the daily need of using

A. Ph. Althymol Germicidal Soap

This soap really kills germs. It is a preventive of blood poisoning, lock-jaw and many other ills that start when germs creep into your body through little cuts and bruises of the skin.

For all-around usefulness, I've never seen a toilette article that compares with Althymol Soap.

IT DISINFECTS
linens, sick-room articles, combs, brushes, baby clothes, etc.

IT KILLS
dandruff microbes (even cookies and vermin)

IT DEODORIZES
Though non-odorous itself, it removes the odor of cigarettes, gasoline, perspiration, etc.
Fine for shampoo, and exceptionally effective in treating acne—often clearing the skin of chronic pimples and sore spots. A cake of Althymol Soap is one of the best investments in personal well-being you can make.

SPORTING MATCH OF CLASS AT DUBOIS TUESDAY EVENING

The Columbia Athletic Club of Dubois is putting on a classy boxing exhibition Tuesday evening next and Clearfield sports are very much interested in one of the bouts.

Matchmaker Eddie Burns has arranged the best card of the season for this show. In speaking of the windup the Courier says:

What promises to be one of the best fights ever arranged for the fighting fans of this city, will be fought between Young Jack Dempsey, formerly of Rochester, N. Y., but now of Dubois, and Charlie Dunn, of Pittsburgh. This will be held by the Columbia Athletic Club on Tuesday, February 15. Both of these men are fast and Dunn is one of the most popular welterweights in this state.

In addition to the main bout there will be two preliminaries by local boys. Clearfield people are interested in the semi-final between Clarence Henderson, of this place, and Bobby Roberts, of Dubois. These boys are in the 150 pound class and as they are making their initial bid for fame will make things lively during their six round session.

The Clearfield delegation will have

Ticket Sale American Legion Band Concert February 22

Call Miss Ethel Boyce, H. & C. phone 115R3 between 1 and 4 p. m., to make reservations.

Admission \$1.50 Plus War Tax

WOULD NOT DO WITHOUT IT

You can stop a common cold if you act promptly at the first sign of sneezing and chilliness, hoarseness, tickling throat or coughing. Just take a dose of Foley's Honey and Tar Compound. It is effective and pleasant to take. Harry L. Neff, Price Hill, Cincinnati, O., knows it is good for long-standing coughs and colds, too. He writes: "I had a very bad cough for almost two years. I have taken 3 bottles of Foley's Honey and Tar and am almost well. I simply would not do without it in the home."

MONARCH MILK

Here is a high class milk we think worthy of your attention. We can sell it to you at the price we have to pay for some other brands 14c the can.

Monarch Baked Beans. A little larger can and we think a little bit better bean for the price 15c the can.

BEAHAN'S

- 1st. Manufacturers have reduced their prices.
- 2nd. So have we.
- 3rd. Let's go.

ODDS AND ENDS AND THINGS

By "Skinney"

Fresh eggs have been mighty high in this section the past year or two, even though they are now selling in the city markets at 40 cents per dozen, but they have had nothing on the rotten ones Charles H. Frick, a union labor organizer, was treated to in a rotten egg shower down in Mississippi a few months ago when he attempted to organize the negro employees of the Munn Lumber Company. Frick brought suit against the company and a Mississippi court has just given him a verdict of \$10,750 for same.

The Eighteenth Amendment is supposed to have prohibited rum drinking in Pennsylvania, but here we have Lloyd Smith, a 25 year old Bradford county murderer, appealing to the supreme court of the state for a new trial on the ground that his interests suffered at the trial of the case because his chief counsel got drunk and was unable to participate in his defense. The case was tried at Towanda before Judge Maxwell in April last. Smith was convicted of killing his wife's three weeks old child and was sentenced to die in the electric chair.

It is the first time in the history of Pennsylvania jurisprudence that such a claim for a new trial was offered, even though some attorneys were known to 'crook the elbow' before the county went dry—not too dry.

The story of the "Old Sting Band" adds another old timer to ask a hearing for another old Clearfield organization, the famous "Carter Drum Corps," which divided honors with the equally famous "Kiamer's Band," another "Sheepskin battlev," in the good old days.

The "Carter Band" was composed of John George, Levi and William Carter, William Ogden, Joe Jordan, Ferd Jordan and our old friend Comrade James Sutton. It is always in demand for political parades and other worth while celebrations from the early days even up to the present, being recruited or hired in from time to time from sons and grandsons of the original musicians. Of these old timers Comrade Sutton and Billy Carter yet remain in the service and are each as able in his part as in the days of their youth, the "Comrade" being rated as Clearfield county's best fiddler.

A Schuylkill county woman made application for divorce before Judge Maxey at Scranton recently, alleging that her husband used to hitch her to a cultivator on the farm and made a regular horse of her during the harvest season. The woman didn't feel so much about being made to play the part of a beast of burden, but when after she had "worked the corn stalks," come home and find her husband in bed with another woman, she decided to take him to court to release her from the present noose and give her opportunity to take another chance.

We take off our hats to Warren G. Harding. He knows what he is doing, alright, and no doubt believes in casting an anchor to windward, nautically speaking. He has named Andy Mellon, of Pittsburgh, as his secretary of the treasury. Andy is rated as one of the 25 richest men in the U. S. A. and he says that he owns the Overholt distillery. You know there is no telling when this damned prohibition will really prohibit and when a fellow needs a friend a distillery isn't a bad thing to have around.

The DuBos banks installed a burglar alarm a couple of weeks ago and since that time the towns leading business men, about the center of town, are all suffering from palpitation of the heart. Regularly or irregularly, or every once in a while, the pesky alarm goes off and the natives grab their blunderbuses and scoop down on the bark to help rescue their money from the hands of the crooked robbers. The alarms have all been false thus far but the are just a sneaky as the real thing.

HE MAY HAVE AN AXC TO GRIND

We received a letter postmarked Detroit, Mich., containing an article headed "What the Dr. Laws Has Done For Some People" and charged a native doctor with rolling wealth by reason of a profitable bootleg business. Our correspondent evidently doesn't believe what he says because he was afraid to sign his name, saying only "A. B. C. D. E. F. G. H. I. J. K. L. M. N. O. P. Q. R. S. T. U. V. W. X. Y. Z."

DAINTY MUSLIN GOWNS

Have low neck and short sleeves. Plain little gowns, that's their charm. Flesh and white in regular sizes. 75c, 95c, \$1.25

Leitzinger Brothers

AN INSIDE BATH MAKES YOU LOOK AND FEEL FRESH

Says a glass of hot water with phosphate before breakfast keeps illness away.

Physicians the world over recommend the inside bath, declaring this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health while the pores in the ten yards of bowels do.

Men and women are urged to drink

each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poison, sour bile and toxins, thus cleansing, sweetening and purifying the alimentary canal before eating more food.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull,aching head, sallow complexion, acid stomach or other who have bilious attack or constipation should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to show the value of inside bathing.

We Have Installed A MAAS CARBONATOR

The most sanitary method of producing Carbonated water—the last word in soda water.

McCARTY'S

You Can Rely On Dollings Service

The entire activity of The R. L. Dollings Company with regard to the preliminary investigation and permanent supervision of any concern whose securities it offers the public may be set forth in a single sentence, viz: "The R. L. Dollings Company does for the ordinary investor just what the large investor does for himself."

The main question to the investor is not the merit of the particular investment offered, but the first through whom he invests.

If one must rely upon information—and he must—why not rely upon expert information?

Childs, the city soup house man, reports earnings of over \$11 on common stock. Some kid, eh?

There are Jerseyites are going to prove themselves right after all. A vote taken in their legislature this week showed an overwhelming majority for ratification of the prohibition amendment in the House and it lost in the Senate by only one vote. One more election and they will have enough Republicans in the Senate to ratify it.

It is very fortunate for the people of this vicinity that the Bailey crossing matter was brought to light when it was. There is time yet for the right thing to be done in the matter and the road made safe for all time. There are four elements which must function—and together—if the oversight is to be corrected. The public must insist that the crossing be eliminated. The State Highway Department in line with its usual efficient and progressive manner of doing things, must follow the formal complaint through the mazes of the Public Service Commission. The Public Service Commission must, as we understand it, comply with the law by issuing the formal order of discontinuance of the grade crossing and finally the B. & P. Ry., having always been willing to co-operate in matters of public interest and safety, will no doubt very willingly assume their share of the expense.

The writer, while in Harrisburg on Wednesday, learned from an official of the Highway Department that the articles in The Progress had been read by them and was told that while the matter was considerably complicated it had been taken up and would have their best attention.

It is far from a pleasure to object to a measure having the endorsement of a state department of government. The Progress has always believed it wise to give any administrative officer or body every assistance and all the latitude they need to obtain results. In the great majority of cases the officer responsible for the conduct of a department knows best what is needed in the way of corrective measures. We must beg leave to differ with the State Game Commission in its campaign for a law making it illegal to kill spike bucks. If the purpose of this law was to protect the spikes we could offer no objection but the new measure is being put forward to take up another law which because of inadequate penalty has not been successful. We do not need a spike buck law. We do need, however, a jail sentence imposed in every killing of a doe or fawn. It is no doubt true that there are some illegal killings bordering on innocence. A provision for a heavy fine in case confession is made within two days of such killing but punishable by fine and certain imprisonment on conviction after that period would, we believe, result in fewer illegal killings. In all cases we believe the offenders should be deprived of the right to hunting licenses for a period of one year.

It is not surprising to the close observer that the railroad men could not get on their plea for abrogation of the railroad wage agreement. As is usually the case in disputes between the employer and employee, the public was left out of their discussion, at least there was nothing but vague and meaningless professions of a desire to reduce freight rates and improve service.

We cannot subscribe to the view that present wages can always be maintained and it is the height of foolishness to read on that wage levels can be maintained by legal measures without regard to economic or business conditions. It is even more foolish to believe that a reduction in wages will inevitably lead to less business for the retailer and the average business. It will affect the business man in volume only but his profits will be in ratio to the wage of the earner, as they should be.

The efforts of the railroad managers to have the wage agreement abrogated was so closely allied with the hostile drive on organized labor that a great deal of suspicion was kindled in the minds of the people. It was quite universally

looked upon as the first assault on labor in a relentless war which had for its object the killing off of all forms of organized effort, rather than the first step towards cheaper transportation.

We do believe that there must be a readjustment in railroad wages in line with adjustments in other industries and it is the tactics of the managers, rather than the attempt that we censure. Whatever abuses exist cannot be corrected by a wholesale tearing down of the present structure. That course would only be inviting more industrial strife. A definite statement as to what wage readjustments are necessary and what effect they will have on rates and fares will be accorded a better reception by the public. We might remark that this decision will not raise the usual howl that government officers are controlled by the "interests."

MEAT INJURIOUS TO THE KIDNEYS

Take a Tablespoonful of Salts if Back Hurts or Bladder Bothers—Meat Forms Uric Acid

We are a nation of meat eaters and our blood is filled with uric acid, says a well known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have

stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to enteralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

Your living room can be made a thing of beauty by laying

CROMAR
Finished Oak
Flooring

over your worn soft wood floors.

A fine hardwood floor fits into the scheme of things as nothing else can. It is the basis of an attractive room.

Cromar is not approached by old style hardwood floors. First of all, Cromar is rarely rich and beautiful. It is ready to use when the last nail is driven, for it is finished—like furniture—at the factory.

Cromar disposes of all the scraping, sand-papering, varnishing and waiting of ordinary oak flooring. Its final cost is less than good carpets.

Phone for booklets.

AN EDITORIAL

You Are An Advertiser

Q We want to prove to you that you are by showing you what advertising is, how you are using it and how you can use it further to good advantage.

Q You think of advertising more often as the printed appeal of the person who has goods, chattels or services to sell but it is more than that. IT IS INFORMATION.

Q Sometimes you clamor for a newspaper or a magazine without advertising but, honestly, do you really want it and would you buy such a publication. NO. It would lack the very thing you are, after all, most interested in—INFORMATION. Information regarding the wares which you purchase for your home, the price fluctuations, the entertainments, the offerings of the business houses in new goods, the merits of the various motor cars, positions wanted and help wanted, new inventions, perfected for our greater enjoyment of life. A thousand and one things about which we can learn only in the advertising columns.

How You Are An Advertiser

Q Ever since little Mary proudly adorned her "pig tails" with a ribbon of bright hue and little William boasted of his ability to "skin a cat" they have been advertisers. Both were acts designed to attract attention to themselves.

Q To have a clean and comfortably clad body is all that is essential so every extra stroke of the hair brush, every carefully made curl, every stylish cut of garment, every design of cloth; all your efforts to attire yourself in harmony with your physical appearance, thus attaining an appearance generally spoken of as "in good taste," is advertising.

Q The young lady who with zeal applies herself to the accomplishments of art and science, domestic or otherwise and the young man who is ambitious and displays to his employer his best handiwork are in like manner advertising.

Q The person who is not an advertiser of self by his work or his affairs is a person without ambition or desire to help himself and consequently of little use to others. Occasionally a worthy person is found who "hides his light behind a bushel" but in such cases the light penetrates the bushel and he is advertised. Your bushel, however, may be impervious to your light. DO NOT RISK IT. We repeat—YOU ARE AN ADVERTISER.

Q You know the advantage of an alert mentality, a clean body, comfortable neat looking apparel, accomplishments, the good opinion of your fellows, the approval of your employer—ALL GOOD ADVERTISING POINTS.

Q How You Can Use Advertising To a Further Advantage
Keep on advertising yourself, no conspicuously, but by your good appearance, your good works and putting forward the best that is in you in every line of endeavor. A well established axiom of advertising is that it must be BACKED UP BY THE GOODS.

Q You are the goods. BE SURE OF YOURSELF—THEN GO AHEAD.

Q Have we convinced you that YOU ARE AN ADVERTISER?

Q If not, write the editor of The Progress your views. On Monday we expect to tell you some more about advertising.

SUNDAY WITH THE CHURCHES

FIRST BAPTIST CHURCH

10:00 a. m. Bible School
11:00 a. m. Morning worship Subject "Three Invitations"
7:30 p. m. Evening service. Theme "How Shall We Escape If We Neglect So Great Salvation."
Beginning with Tuesday evening, we expect to have with us, until Feb. 20th, Pres John A. Davis of the Practical Bible Training School. Mr. Davis is the Founder as well as its President. The School has grown, until its students are preaching the "Old Gospel" around the world.
These services are for everyone who loves the "Old Book" and have a desire to hear it preached in the power of the Holy Spirit. We cordially invite you.

UNITED BRETHREN CHURCH

Corner Dorey and 7th Streets
G. R. Alban, Pastor
9:15 Prayer meeting Sunday School Room.
9:45 Sunday School
11:00 Preaching Service; subject, "The Holy Spirit."
Christian Endeavor.
Evangelistic services. The pastor will preach his third sermon of a series of three sermons on Amusements. Subject "Dancing and it leads too." If you want to know a man who has enough red blood, backbone and grit to stand up before the people and call things by their right name come to the United Brethren church.

CHRISTIAN MISSIONARY ALLIANCE

13th, regular service will be held at Susquehanna College of Music Auditorium as follows:
Sunday School at 2 p. m.
Prayer at 3 and 7:30 p. m.
Bible Study Tuesday at 7:30 p. m.
Every sinner is invited to come and hear what Christ can do for them and every Christian as well to the Full Gospel feast.
Rev. A. N. Salvice

11TH STREET M. E. CHURCH

Public Worship 10:30 a. m.
Sunday School 2:00 p. m.
Epworth League 6:45 p. m.
Evangelistic services 7:30 p. m.
Revival services on Wednesday evening at 7:30 o'clock
At 8:45 Sunday morning the Brotherhood will meet in the upper room. Every man is urged to be present.

WEST SIDE M. E. CHURCH

6:00 Sunday School.
10:45 Preaching Service.
6:45 Epworth League.
7:30 Evangelistic Services. Chorus singing will be led by Mr. Cook.

4:30 Epworth League Service.
7:30 p. m. Public Worship. Subject "Mr. Lincoln's Unfinished Task."
The church cordially welcomes visitors and strangers to all the services.

A Native Acacia.

Southern California boasts one native species of acacia, the cat's-claw (Grevillea), which is but a shrub in that state, but becomes a tree in Arizona. It bears small pale yellow flowers and a abundance of very sharp thorns.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By REV. P. B. FITZWATER, D. D.,
Teacher of English Bible in the Moody Bible Institute of Chicago,
(© 1920, Western Newspaper Union.)

LESSON FOR FEBRUARY 13

LESSONS ON CITIZENSHIP. (May Be Used With Temperance Applications).

LESSON TEXT—Matt. 22:35-40.
GOLDEN TEXT—Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind. This is the first and great commandment. And the second is like unto it. Thou shalt love thy neighbor as thyself.—Matt. 22:37-39.

REFERENCE MATERIAL.—Matt. 22:35-40; Mark 12:13-17, 28-34; Luke 20:20-26, 41-44; Rom. 13:1-14; Phil. 3:17-21.
PRIMARY TOPIC.—The Land We Love.
JUNIOR TOPIC.—Our Country.
INTERMEDIATE AND SENIOR TOPIC.—Getting Ready for Citizenship.
YOUNG PEOPLE AND ADULT TOPIC.—Christian Standard of Citizenship.

I. The Tribute Money (vv. 15-22).
The Pharisees and Herodians purposed to entrap Jesus and bring Him into conflict with the Roman government, so they came to Him with the subtle question, "Is it lawful to give tribute to Caesar or not?" At this time the Jews were galling under the yoke of the Roman government. Some even denied the right to pay tribute to the government. To have answered this question by "yes" or "no" would have involved difficulties. To have answered "yes" would have conveyed the impression of endorsement of all that the Roman government did. To have answered "no" would have at once brought Him into conflict with the government. It is not an easy matter for a Christian always to determine his right relation to civil government. Many a minister has made a failure of his work because he tried to solve the problem. Christ's reply to this question, properly understood and applied, is the final word on the subject. Until the civil authorities demand of us that which is a violation of God's law, we are bound to render unto them obedience. "Render unto Caesar the things that are Caesar's" means the highest obligation. Since enjoying His protection and care it is our duty to owe all allegiance to Him, to yield our lives to Him in service, worship and praise. Every one who enjoys the benefits of civil government is obliged to pay the taxes which are necessary for the support of that government, and every one who receives God's favor is placed under a like obligation unto Him.

II. The Great Commandment in the Law (vv. 34-40).

For the third time in one day the Lord is tried by hard questions. While these questioners were actuated by wrong motives, we may be forever glad that they put these questions to Him because of the invaluable truth which His answers set forth.

1. The first commandment (vv. 34-38). "Thou shalt love the Lord thy God with all thy heart, with all thy soul, and with all thy mind." This means that supreme and undivided love to God is the first and great commandment. This at once shows that man's supreme obligation is to God. It is wrong to evaluate man's character on the basis of his morality as expressed in his relation to his fellow man.

2. The second commandment (vv. 39-40). The second commandment is like unto the first in that it centers in love. It is not said that it is equal unto the first; that would not be true. A man may love himself, but not supremely. One's love for his neighbor may be either too much or too little. The measure set is love for self. We should love God better than ourselves. He is worthy of all our affections and demands all. Love is not mere emotion, but a supreme desire for the welfare of another and a willingness to do everything possible to secure that end. The command to love our neighbor is involved in the command to love God. To pretend to love God is folly if we do not love our neighbor. No one does really love his neighbor who does not love God. To attempt to establish a brotherhood among men without the recognition of the Fatherhood of God is utter nonsense. Men become children of God by faith in Jesus Christ. It is true that in the sense of being God's creatures all men are God's children, but in the New Testament sense men are only God's children as they are in Christ. Beware of the man who is constantly crying for the brotherhood of man and is at the same time rejecting Jesus Christ. The only real way to bring in the brotherhood of man is to preach Jesus Christ unto the race and secure their acceptance of Him. We thus become brothers in the real sense of the term, when we have God as our Father. All obligations resting upon man are embraced in these two commandments. Those who conform their lives to them are God's children and are the very best citizens.

Worldly Fame.

Worldly fame is but a breath of wind that blows now this way, and now that, and changes name as it changes direction.—Dante.

Fame is an undertaker that pays but little attention to the living, but bedizens the dead, furnishes out their funerals and follows them to the grave.—Cotton.

THE FRANKLIN

They Couldn't Improve The Car So They Improved Its Looks
If You Don't Agree With Us That This New Product Of The Franklin Factory Is About
The Prettiest Car That You Ever Set Eyes On, We're Mistaken.

Come In And See The New Hooded Sedan

Instead of the old style hood which has characterized the FRANKLIN for so long the FRANKLIN designers have produced a new type that embodies all the features of the old hood but enhances the beauty of the car. Instead of the curved-in hood with which you have grown familiar, the designers have produced a new design—beautiful in every line, doing away with every possible unsightly angle. The new hood starts at the front axle and now flows in a slight sloping line—just enough slope to beautify the design—up to where it meets a line running from the center of the slanting V-shaped windshield, another typical FRANKLIN feature.

This new shape of engine hood does not interfere with the wonderful aircooling type of engine, you know that the FRANKLIN goes along in either hot or cold weather, either being alike to the sturdy throbbing engine that purrs away every minute you ask it to.

The Franklin Sedan

A fine, five-passenger enclosed car of broad and practical usefulness.

Front seats of the Pullman swiveling and tilting type.

Upholstered in neutral green broadcloth, with silk shades to match.

Dull platinum trimmings of exclusive design.

Color, Franklin green for body and chassis, black for superbody.

Interior appointments consist of window regulators, coat hooks, dome light of tinted glass, grab handles, robe cords, hand mirror and silk shades.

Body and running board shields are of aluminum.

Rothchild body panel construction that dispenses with all joint moldings.

Body built with slanting V-front, composed of two adjustable windshields, affording wide and unobstructed vision and the least wind resistance.

Provision is made for securing luggage trunk to running board.

Goodyear cord tires. Weight 2770 pounds.

The Franklin Runabout

A two-passenger car with one-man top and Always Ready curtains of Neverleek fabric.

Removable attachments facilitate opening and closing of door with the curtains in position.

Upholstered in hand-buffed, straight grain black leather with semi-bright finish.

Color: Body and running gear, Franklin green.

Body and running board shields are of aluminum.

Large, roomy hamper in rear of body, and small package compartment in back of seat.

Adjustable two-glass windshield, slanting type, with one-piece standards.

Provision is made for attaching luggage trunk to running board.

Goodyear cord tires. Weight 2320 pounds.

MADGE KENNEDY in

"THE TRUTH"

Adorable Becky Warder knew that it was wrong to lie—yet she couldn't resist in telling a "fib" every time the opportunity afforded. But when Beck's little white lies got her into trouble, she learned her lesson and resolved to tell the truth for the rest of her life.

MAY SHE LIVE LONG AND PROSPER

A fine big ten pound daughter, named Elizabeth Ann, was born to Mr. and Mrs. Mahaffey Ferguson at their home in Reynoldsville on Tuesday, February 8. Mrs. Ferguson was Miss Alta Rowles, a popular Clear-

field teacher, before her marriage and Elizabeth Ann's Clearfield county friends are pulling hard for a long, happy and prosperous future for that lovely young lady.

NERVOUS FAINTING SPELLS

Mrs. Werner Tells How They Yield to Lydia E. Pinkham's Vegetable Compound

Camden, N. J.—"Before my baby was born I was run down and weak, had pains in my back and stomach, was very nervous and would have fainting spells. I certainly suffered awfully with those nervous fainting spells. I did not know anyone at times and used to scream. A doctor treated me for the spells but did not seem to do much good. I had taken Lydia E. Pinkham's Vegetable Compound and Liver Pills before so I began taking them again. I soon felt a change and could do my work without pain and was cured of those nervous spells. Now I have a nice fat baby girl and had an easy time at birth, thanks to Lydia E. Pinkham's Vegetable Compound."—Mrs. WILLIAM C. WERNER, 1216 Van Hook St., Camden, N. J.

When a wife finds her energies are flagging, she is weak, nervous, suffers from backache, the "blues" she should build her system up at once by taking that standard woman's medicine, Lydia E. Pinkham's Vegetable Compound, as did Mrs. Werner.

If there is anything about your condition you do not understand write Lydia E. Pinkham Medicine Co., Lynn, Mass., in regard to your health.

BEAUTIFUL VALENTINES AWAIT YOU HERE

Some of the most beautiful designs that you ever saw are here in profusion to make merry or to send a tender message on St. Valentine's Day.

Of course, we're selling them fast but we had a lot of them and the assortment is yet good.

THREE GAMES FAIL TO BREAK THE TIE IN H. S. BASKETBALL

Clearfield Easily Won From DuBois but Punxsutawney And Brookville Took Their Opponents in Too.

DUBOIS PASSING GOOD

Clearfield High's basketball quintet made it three straight last evening by defeating the DuBois High School 46-20.

This was the second game between the two teams this season, the Red and Black trouncing the county metropolis lads, 44-15 at DuBois in the opening game of the league, and by last night's victory made a clean sweep of the athletic contests between the schools, as DuBois lost to C. H. S. last Fall in football.

Clearfield rushed the play during the first round, and quickly rolled up a safe lead, at the same time holding the third class city boys to one field goal and two fouls, and it looked as though the DuBois team would be swamped the second half, but the Black and White five "came back" and as a result of its hard playing succeeded in holding C. H. S. to 19 points the second half.

However, it was apparent that Clearfield relaxed from the fast pace it was traveling the first half due, no doubt, to the fact that it was evident that it had the game cinched.

At the start of the second period Captain Neff received a bad bump on the eye, which handicapped him greatly, but the Red and Black leader stuck to the game and continued to ring up baskets.

The DuBois team displayed good pass work, but seemed at a loss when they advanced the ball near enough the basket to shoot, and usually tried some long or fancy shots that cannot be relied upon to tally, but the second half Falcon, the flashy little DuBois forward, got started and rolled in four, all of the baskets being of the "grab and shoot" type, from the side of the court.

Neff again led in scoring, 26 points with 9 field goals and eight fouls; Bill Ammerman second with six double deckers, but Bill registered a pair of field goals that did not count, referee's ruling. Martin, playing a good all around game, scored four baskets.

Neff and his two wing men, Ammerman and Martin, were easily the stars, but the playing of Norris at guard was a feature, as he held Falcon scoreless while in the game and was always in on every passing bee.

The lineup and summary:

	C. H. S.	DuBois
Ammerman	F.....	Falcon
Martin	F.....	Swisher
Neff	C.....	Montgomery
Norris	G.....	Ross
Bowes	G.....	Benson
Substitutions: Ross for Benson, Johnson for Swisher, Shull for Norris.		
Field goals, Neff, 9; Ammerman, 6; Martin, 4; Falcon, 4; Montgomery, 2; Johnston, 1; foul goals, Falcon, 5 out of 17; Swisher, 0 out of 2; Johnston, 1 out of 1; Neff, 8 out of 14.		

League Standing

There was no change in the relative standing of the six teams as a result of last night's games, the triple tie for first place still existing. While DuBois was taking a wallop here, Punxsutawney defeated New Bethlehem at the first named place by a score of 41 to 25, while Reynoldsville failed to negotiate its first victory, falling before Brookville by a score of 41 to 25. The standing.

	W.	L.	Pct.
Clearfield	5	1	.833
Brookville	5	1	.833
Punxsutawney	5	1	.833
DuBois	2	4	.333
New Bethlehem	1	5	.166
Reynoldsville	0	6	.000

Big Game Tuesday Night

The high school management has scheduled the strong St. Bonaventure School of New York state to meet the high school team, next Tuesday

"HE VAMP" RUN IN BY HEARTLESS AND CRUEL OFFICERS

A well dressed young Italian, with a Charlie Chaplin mustache, who it is alleged, has been following different young women about town for the past couple of weeks, was picked up on Market street this morning by Court Officer W. J. Leavy and Manager Fred Ward of the McCrovey store.

Pretty general complaint has been filed the past ten days by Market street store clerks regarding a dark-eyed, black mustached "he vamp" who had been jingling around town. When a young lady would come along the masculine vamp would feast his dreamy eyes upon her and when he received no recognition would turn in behind the young lady on the sidewalk and in military tempo, like the fellow who interviewed the Kaiser, would follow the young lady for several squares.

A description of the fellow was given the police and they were on his trail. This morning one of the young women who had been followed several times, started down Market street. She hadn't gone far until "the pacer" got on her trail. After traveling a block or two the young lady retraced her steps and the "vamp" did likewise. Leavy and Ward were on guard and laid hands on the fellow and yanked him into the sheriff's office, where he was given the once over by District Attorney Arnold and Sheriff Gorman.

The fellow could "no spika da Anglesesh" and he was turned over to Chief Pitt and placed in the lock-up for further investigation.

FOSTER MOTHERS CANNOT SHARE PENSION BENEFITS

That the Mothers' Pension Fund law applies to children in fact and does not apply to mothers by legal adoption is the opinion of Deputy Attorney General William I. Swope in reply to a query raised by the director of the mothers' pension fund, who asked him whether or not it would be possible for a grandmother who has adopted four orphan grandchildren to enjoy benefits of the pension law. Deserving though the case may be, the deputy attorney general is compelled by the plain interpretation of the act creating the fund to limit its application to the "mothers of legitimate children" and children of the mother receiving assistance. "The fact that she would adopt the children would not make her their 'mother' in the sense in which the word is used in this act of assembly," Mr. Swope holds.

Song-Loving Mocking Bird.

Many bird lovers who are now permanent residents of Florida, but who spent their early youth in the North, claim that the varied song of the mocking bird fully compensates them for the lack of the robin, the song sparrow, the oriole and other songsters that they were accustomed to hear and see among the orchards and hills of their Northern homes. The mocking bird in the South really fills the place in one's affections that the robin holds in the north.

Humorous Comment.

While his mother accompanied his mother to a church social at which ice cream was served. The following Sunday his brother had served ice cream at the noonday meal, and there being a small quantity left, had apportioned it to the members of the family at supper. On receiving his portion Willie looked at his plate critically, then said: "Mamma, this looks like a sociable dish of ice cream."

To Be Remembered.

We sometimes need to remember that it takes some shadows to bring out the richness and beauty, and humanness of life, as well as of pictures.

evening, and from all reports the York staters have one of the best school boy aggregations in their section of the state, so this contest should be fast and snappy.

WOODLAND

Fred Herbert spent Sunday with relatives in Munson and Allport.

Frank Holden, Diamond Driller for Harbison-Walker Ref. Co. is laid up with a severe attack of rheumatism.

Guy Snyder who has been a patient in the Clearfield hospital for several months and who while there suffered the amputation of one foot, has so far recovered that he was able to be brought to his home in Mineral Springs on Sunday.

Mrs. Veidon Knepp, of Arcadia, was called home this week on account of the illness of her father George Stevens.

Mrs. Abraham Peters and Miss Ethel Mitchell were Clearfield shoppers on Thursday.

Mrs. Clara Stewart, of Clearfield, spent several days recently with relatives here.

Mr. Hart and Mr. Rodgers who recently arrived in this country from Liverpool, England, and who were unable to secure employment applied to the Salvation Army in Clearfield and were directed to the H.-W. brick works and were picked up by Mr. McClure, who had them come to Woodland where they secured work in the clay mines. Both young men have seen service in the late World War. Mr. Rodgers served four years in the British Aerial service and Mr. Hart seven years in the Motor Transit Service having been on the Italian front.

The Hope brick works have been shut down all of this month, while installing a new engine. They expect to be able to start up on Monday next.

Business in the soft coal mines around Woodland has improved during the past week but in the Cannel coal mines business has been rather slack.

Mrs. James Henschliff spent Tuesday at the home of Mrs. Grant Snyder of West Front street, Clearfield.

Mrs. George Snyder was a Clearfield shopper on Friday.

Lee Heath was called to Sandy Ridge on Thursday evening on account of the serious illness of his mother Mrs. Charles Heath.

Evangelistic meetings are in progress in the U. B. church and are both interesting and well attended.

Mrs. Kate Kronister of Martha, spent Sunday at the home of Mrs. John Gingery.

Indians' Apt Description.

Sinapachugay is the word coined by the Navajo Indians of Utah for motorcar, and it is literally translated to mean a wagon that goes with a "chug," according to an authority on the language of the Navajo, Hopi and Apache Indians. The Indians are now seeking a word for the airplane. It is a miracle to them.

Clover Barometers.

The ordinary clover and all its varieties, including shamrock, are barometers. When rain is coming the leaves shut together like the shells of an oyster. For a day or two before rain comes their stems swell to an appreciable extent, and stiffen so that the leaves are borne more uprightly than usual. This stem swelling when rain is expected is a feature of many flowering grasses.

First Iron Works.

Plymouth was the first permanent white settlement in New England and dates its founding from the landing of the Pilgrims, December 21, 1620. The iron works on the banks of the Saugus river, established in 1648, were the first iron works in America. A small iron pot cast there in the first forge in America is now the property of the city of Lynn and is in a glass case in the Lynn public library.

SATURDAY NIGHT

PROGRAM HERE FOR YOU TONIGHT

LIBERTY THEATRE

Mr. and Mrs. William Adams and Mrs. W. C. Spackman attended a surprise party given Mr. and Mrs. John L. Pearce at their home in Bigler on Wednesday evening.

Clara May, daughter of Mr. and Mrs. J. A. Stiner of Woodland, and Homer Dixon, of Spring Valley were married by Squire Owen Duffy at his office on Wednesday evening.

William Wilkinson, on whose head father time has lightly touched, being nearly eighty and whose vision is such that he reads without glasses, does not let any of the youngest men sit any pace for him, does not waste any time waiting on trains, and being in a hurry the other day on to Clearfield started and walked the six miles and only arrived on time. He saved a couple for the younger men who with a they want to go as where must have an auto to take the 2.

BAZAAR PROCEEDS ARE APPROXIMATELY \$10,000

The Reliance Fire Company's bazaar at Philipsburg closed last Saturday night with everybody satisfied and everything they set out to do accomplished. The people of that section had their best big time in years. While the bazaar was going on, it was the main topic of conversation for everyone. While no definite amounts can yet be given, approximately \$10,000 was raised, which will be more than sufficient to pay for the truck, which costs \$9,600 and will be delivered April 1. The Dodge car has not yet been disposed of.

ASK yourself, as to how you are getting along. You have a pretty good idea whether or not your eyes are working vigorously and properly transmitting the world's sight messages to your brain. If you suffer from any kind of eye detection or fatigue you should at once have your eyes tested by our optometrist. His advice is absolutely dependable.

Well-Preserved Water Pipes.

Wooden water pipes that were used from the time of the Revolution until the fire of 1872 to carry water into Boston have lately been unearthed and are found to be in a good state of preservation. A coin of the date 1808 in an almost perfect condition was found near one of the pipes, establishing, it would seem, the date at which the pipe was laid.

A Limited Number of Miners and Miners' Laborers can find Steady Employment

in the Northern Anthracite Region of Pennsylvania. There are at present vacancies at the mines of this Company which will furnish employment for

**700 Contract Miners
1800 Contract Miners' Laborers**

Contract Miners earn from \$7.00 to \$9.00 per 8-hour day and must have had 2 years' experience in the Anthracite Mines of Pennsylvania.

Contract Miners' Laborers earn from \$5.50 to \$6.50 per 8-hour day. Their work is to assist the miner and load coal into mine cars.

This Company operates 15 mines and produces 8,000,000 tons yearly. The mines are located in the Lackawanna and Wyoming Valleys adjacent to Wilkes-Barre and Scranton. Persons wishing employment must apply in person at the general office, 434 Wyoming Avenue, Scranton, Pa., Room 14.

THE HUDSON COAL CO., Scranton, Pa.

The Mines of this Company have worked an average of 285 days per year during the last 10 years.

Ford
THE UNIVERSAL CAR

That Universal Ford After-Service

The most reliable after-service which is ever behind Ford cars, trucks and Fordson tractors is positive assurance to the owners of Ford cars of the constant use and service of their cars.

Our skilled Ford mechanics know how to adjust or repair Ford products so that they will serve to the maximum of their efficiency. They understand the Ford mechanism thoroughly, and can make adjustments or replacements quicker than other repairmen who lack Ford training. There is a standardized way for making every repair and adjustment on a Ford car. It is the quickest, surest way; and in all their work our mechanics follow the methods recommended by the Ford Service School at the Ford factory. The standardized repair jobs are covered by reasonable Ford charges. Thus you are assured of having your work done properly, promptly and at a reasonable price. Genuine Ford parts, Ford mechanics, Ford special tools and machinery and Ford charges are an unbeatable combination.

When you require service we are at your immediate command.
